

WizzardOS

SETUPWIZZARD

The digital revolution for mobile wheel alignment systems. Suitable for all racing and high performance vehicles.

Fully digitalized
and wireless wheel alignment experience

Trusted values
with highest repeatability and accuracy

High end
precision with newest laser sensor technology

Versatility
with solutions for every race and performance vehicle

Wizzard OS
the most intuitive data management software for wheel alignment systems

Plug and play
accessory program for every customer requirement

Global support
and 24/7 online shopping experience

Awarded
best pit equipment tool 2024
awarded at Professional Motorsport World show in Cologne

Delivery Contents

SetupWizzard Digital

- 1 Adapter plate camber sensor (4x)
- 2 Setup wheel incl. wheel adapter (4x)
- 3 Positioning laser
- 4 Securing plates (4x)
- 5 Leveling sleeves (3x)
- 6 Digital camber gauge (4x)
- 7 Digital toe laser/sensor module (4x)
- 8 Inspection sticker
- 9 Height sensor gauge
- 10 Label serial number
- 11 Flightcase with integrated charging module
- 12 Weight Plattform (4x)
- 13 Leveling laser incl. stand (1x)
- 14 Camber sensor calibration tool
- 15 Power supply cable
- 16 Tablet with WizzardOS

Delivery Contents

SetupWizzard ProLine

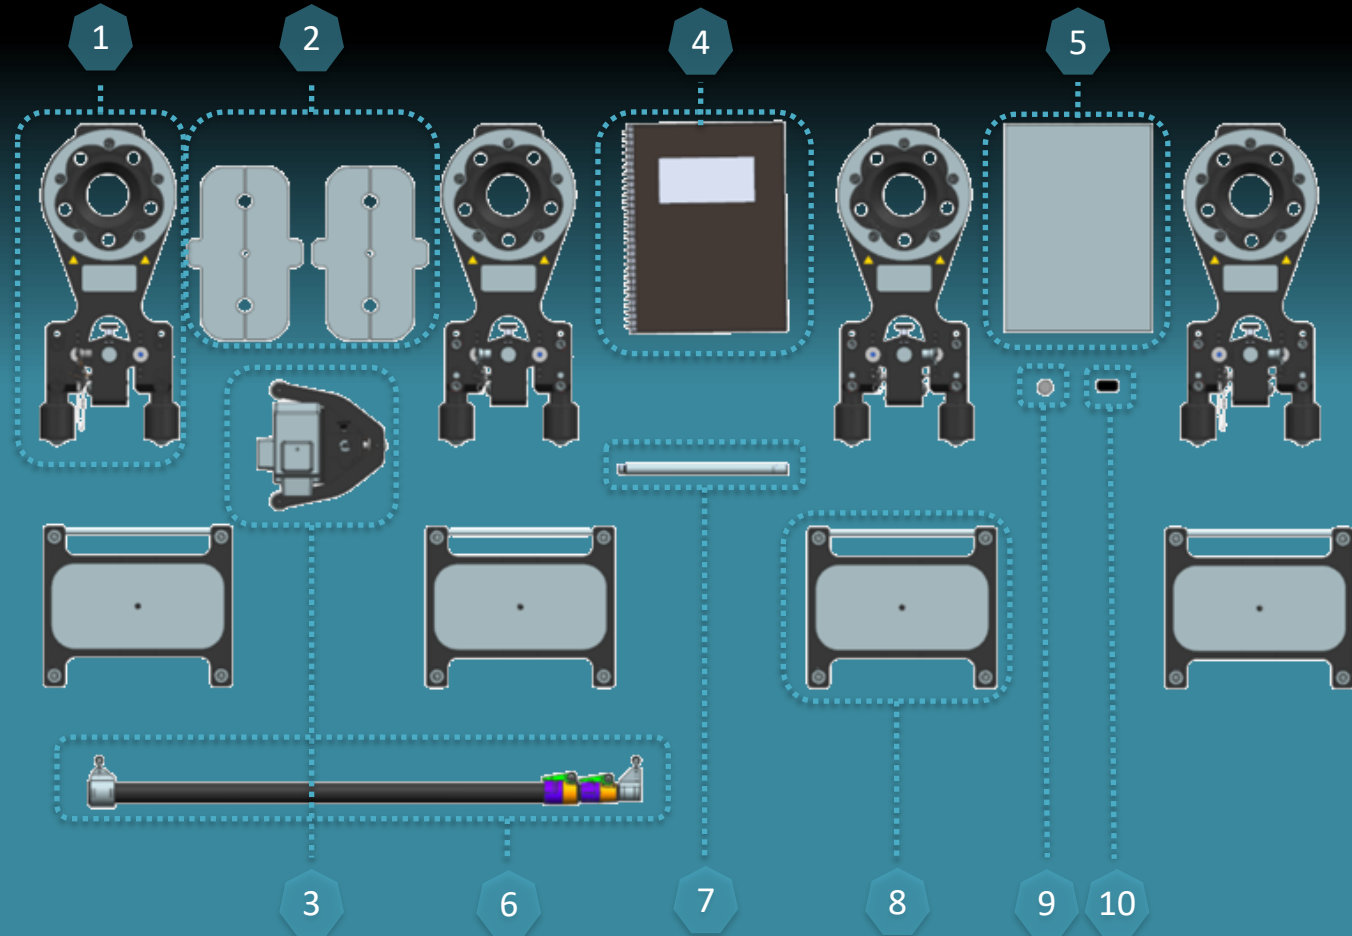

- 1 Adapter plate camber sensor (4X)
- 2 Setup wheel incl. wheel adapter (4x)
- 3 Positioning laser
- 4 Securing plates (4X)
- 5 Leveling sleeves (3x)
- 6 User manual
- 7 Digital camber box (1x)
- 8 Toe laser module (4x)
- 9 Inspection sticker
- 10 Label
- 11 Label serial number
- 12 Flightcase with integrated charging module
- 13 Weight Platform (4x)
- 14 Leveling laser incl. stand (1x)
- 15 Camber sensor calibration tool
- 16 Power supply cable
- 17 Tablet with WizzardOS
- 18 Track gauge ruler

Delivery Contents

SetupWizzard BaseLine

- 1 Setup wheel incl. wheel adapter (4x)
- 2 Securing plates (4x)
- 3 Leveling laser incl. stand (1x)
- 4 User manual
- 5 Label
- 6 Track gauge ruler
- 7 Extension leveling laser
- 8 Weight Platform (4x)
- 9 Inspection sticker
- 10 Label serial number

The full digital & wireless environment

Toe Measurement

Digital Toe Sensor

Laser class	1
Wave length	650nm
Measurement range	$\pm 150\text{mm}$
Accuracy	$\pm 0,5\text{mm}$
Power Supply	Weight platform integrated battery

Features

- Incognito mode
- Wireless
- Power supply
- Laser scales

- Can switch off laser light via software to protect your values
- Data transfer to WizzardOS software
- Powered via weight platform batteries
- Four options available: vehicle angle & millimeter; Real angle & mm

Operating principle

Camber Measurement

Camber Sensor (Digibox)

Measurement range	$\pm 10^\circ$
Accuracy	$\pm 0,1^\circ$
Power supply	3,0V/380mAh Li-Ion
Charging	Flightcase integrated socket connector
Operating time	Up to 8hrs
Usability	Standalone with integrated display & wireless data transfer

Can be used with optional camber gauge frame for direct camber measurement
*optional

Features

- Incognito mode
- Data transfer
- Options
- Flexibility

Can switch off display via software to protect your values

Wireless Bluetooth connection to WizzardOS software

Up to 10 Digiboxes connectable to WizzardOS

Digibox can be used for any angular measurement & can be renamed in Wizzard OS

Components

Calibration Tool

Ride height Measurement

Ride Height Sensor (Digital)

Measurement range	???
Accuracy	???
Power supply	???
Charging	Flightcase integrated socket connector
Operating time	Up to 8hrs
Data	Integrated display & wireless data transfer

Features

- Incognito mode Can switch off display via Software to protect your values
- Data Wireless data transfer to **WizzardOS** software
- Options Multiple sensors connectable to WizzardOS
- Levelling No need for 100% ground levelness. Ride height measurable on uneven floors.

Operating principle

Weight Measurement

Weight Platform

Measurement range	0-750kg / wheel (Total 3000kg)	
Accuracy	< 200 kg: $\pm 0,05\%$	> ab 200 kg: $\pm 0,025\%$
Power supply	7,2V/3350mAh	
Levelling range	45mm (Optional extended feet: 85mm)	
Operating time	Up to 8hrs	
Data transfer	Bluetooth wireless connection to WizzardOS	

Features

- Wiring
 - Charging
 - Adjustment
 - Levelling
 - Repeatability
 - Positioning
- Magnetic snap connector for charging
 - Flightcase integrated socket connector
 - Integrated spirit level
 - Fine adjustment screw for 100% accurate platform levelling
 - Positioning laser for consistent repeatability
 - Securing plates included for positioning setup wheels on platform

Transportation

Flightcase

Dimensions & weight	930mm x 770mm x 1335mm	220kg – 250kg
Accuracy	< 200 kg: $\pm 0,05\%$	> 200 kg: $\pm 0,025\%$
Design	All in a box 3x Drawer	1x Top load
Functionality	Front lid with additional table function	
Charging	Integrated charging module (4x Digibox; 4x height sensor; 4x weight scales)	

Features

- Safety 5 wheel design to carry high heavy load drawers
- Space saving Compact design with dedicated spot for each item
- Accessibility Fully opening drawers
- Robustness Solid design & full corner protection

The full digital control

WizzardOS®

WizzardOS

Functions

Quick Measure

- Measurement real time values
- All values on direct access
- Data export
- Incognito mode switch
- Tara function

Setups

- Pre-configuration of setups
- Session pre-planning
- Setup database
- Filter & search function

Measure

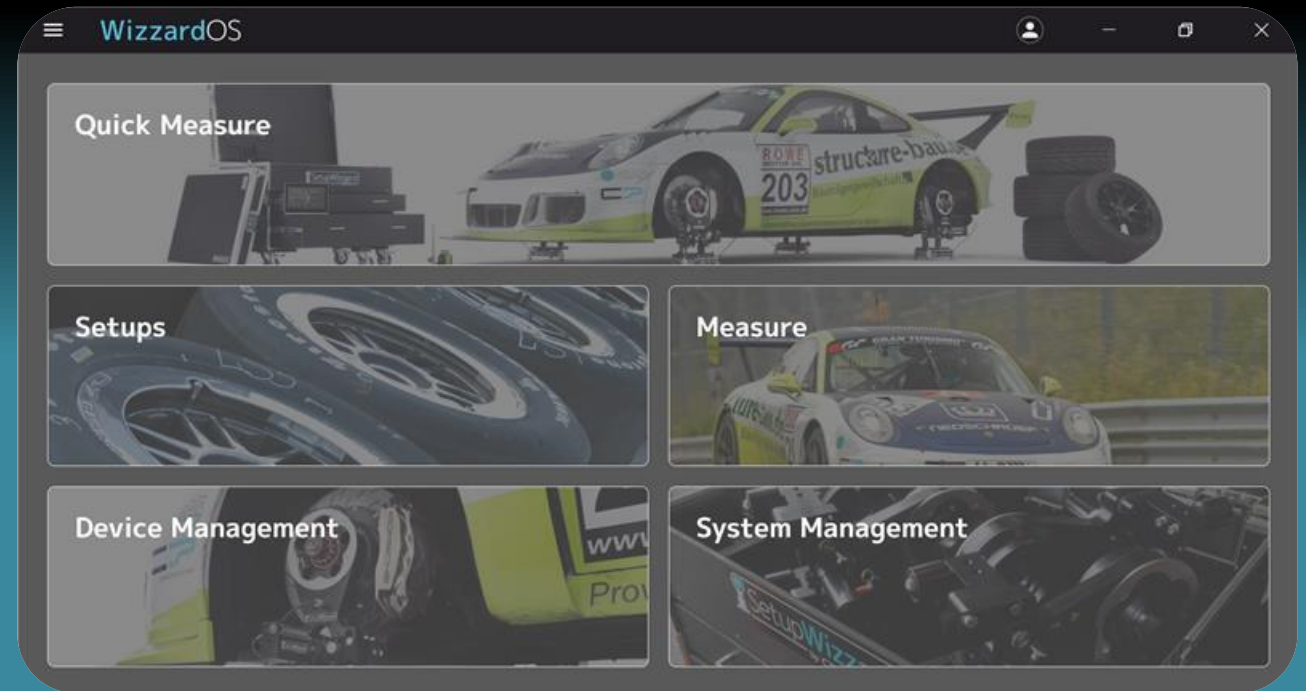

- Measurement should is comparison
- All functions of quick measure
- Load setups from database and compare
- Sensor assignment
- Free positioning of height sensors

Device

- Maintenance of wireless system components

System Management

- Overall system configuration

Formula Equipment

Front

Rear

Variant 1

Fixed front
Floating rear

- Zimmer
- Height extensions (Left & Right)
- Fixed Carbon crossbar
- Dial gauge (2x)

Variant 2

Floating front
Floating rear

- Zimmer
- Height extensions (Left & Right)
- Floating bar (on request)
- Connection bracket

Variant 2

Fixed front
Fixed rear

- Zimmer
- Height extensions (Left & Right)
- Fixed Carbon crossbar
- Dial gauge (2x)

- Height extensions (Left & Right)
- Floating Carbon crossbar

- Zimmer
- Height extensions (Left & Right)
- Floating Carbon crossbar

Chassis specific design requirements.
To be requested individually

Rear floating

Variant 2

Floating Front

Rear floating

Variant 3

Fixed front

On request

Fixed rear

Applicable to all Formula, LMP, LMH & LMDh (GTP) classes

System Upgrades

Caster

- Upgrade your system with the caster measurement

Height Sensor

- Multiple height sensors can be added to your system to increase comfort when measuring ride height

Laser Cover

- Select your preferred measuring dimensions.
- Vehicle mm, real mm, vehicle ° or real °

Rim Camber Gauge

- Manual camber gauge
- Fits rim sizes from 13" to 21"
- Zero tolerance for max repeatability
- Uses Digibox for ultimate tool connectivity

Digibox

Extend your system with multiple Digiboxes to measure angles digitally
Digibox can be used standalone or in combination with WizzardOS Software

e.g.

- Steering wheel angle
- Rear wing angle

Get your Digibox colour coded

- Direct identification of location/corner
- Corporate identity

Accessories and Upgrades

Weight bags

- Compensate & simulate driver weight or fuel weight while measuring.
- Available in two colours: blue and black
- Available in two sizes: 5kg & 10kg

Levelling sleeves

- Extend your system with leveling sleeves, to save time during setting up and re-alignment of your system.

Vehicle Adapter

- Find the right adapter for your car and make each car in your workshop suitable for SetupWizzard
- For special vehicles, or not listed in our extensive database, use our enquiry sheet to get your specific adapters produced

Height extension

- Lifts the entire car on platforms by ~130mm to ensure easier access to all working areas while setting up your car

Height Blocks

- With our height blocks you can extend the lift range of your air jacks.
- Used for cars with very low ground clearance.

Ground socket

- Perfectly fitting to the SetupWizzard scale feet
- Dust protection cover

Global Partner & Distribution

Brand Customization

WizzardOS

Hardware Customization

Flightcase branding

- 3 locations
- visible in every condition
- High quality stickering

Setup wheel branding

- Each setup wheel personalized
- Laser engraved type plate

Scales branding

- 2 locations
- visible in every condition
- High quality stickering

Digibox branding

- Colour coded housing
- Logo integration

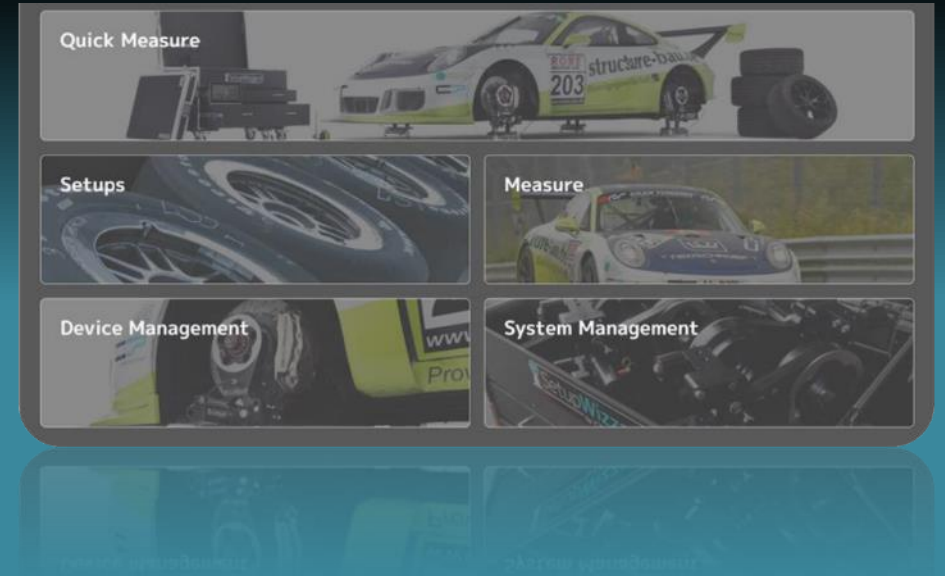

Toe Laser branding

- 4 locations
- Laser engraved personal logo

Software Customization

Ask us for individual software & customization

- Personalized vehicle pictures
- Individual user and account management
- Individual Software CI
- Special features
